Total Calculated		\$733	\$3,743	\$96	\$547	\$561	\$1,133					0
Total Reported		352	3,216	-300	125	231						

Source: Oberthür 2000; Ozone Secretariat 2001; UNEP 2001

Note: Blank spaces indicate no reported data, while a zero (0) indicates either no reported data or 0 MT of methyl bromide consumption. Consumption numbers may be negative; exports are from a large carry-over stock from the previous year.

Shaded rows indicate Article 5 (Developing) Countries

Totals may not sum due to independent rounding.

- In the table above, Total is the sum of the available country data; Total CEIT Reported is the consumption data for CEIT countries collectively as reported by Oberthür 2001.
- Article 5 countries in the CEIT include Romania, Croatia, Macedonia, Georgia, Moldova, Oman, Bosnia & Herzegovina, and Slovenia. Total methyl bromide consumption for these countries was minimal in 1999.
- In 1999, Ukraine accounted for more than a third of total methyl bromide consumption in CEIT countries.
